'Leading with Influence' Program

Develop your next generation of senior leaders.

Leadership today is not about hierarchy. It is about influence.
A goldmine of untapped talent exists within your organisation. Let's unleash it.

*"These workshops have been incredibly thought provoking – so relevant.
Your experience and anecdotes bring the content to life."*

Leaders exist at all levels of an organisation – whether they have direct reports or not. For in today's world of flattening organisational structures, virtual teams, hybrid working, outsourcing, partnerships and accelerating change, successful leadership is about influencing people across departments, and outside of the organisation, to deliver the outcomes you need.

Leadership has always been about delivering results through people, but the days of command-and-control are long gone. People only deliver their best when they genuinely want to. Even leaders with vast hierarchies need to influence people in and out of that hierarchy if they wish to succeed.

This extends to your key individual contributors, those invaluable people in your business who manage no or few people. These key people usually receive no 'leadership development', leaving an untapped goldmine of potential talent undeveloped within the 'Engine Room' of the organisation.

Your technical specialists, your so-called 'low potential / high performance' professionals identified by HR's 9-box talent grid, your portfolio managers, your research analysts, your IT techies, your HR specialists, your finance experts, your paralegals, your part-time workers, your return-to-work parents, ... all possess latent leadership potential that too often remains unacknowledged and unrealised. We help them to develop their technical skills and progress their professional qualifications – but what about their ability to influence, to lead, and to deliver exceptional results?

Every one of these business-critical professionals needs to enhance their ability to influence others if they are to both maximise their career and deliver the outcomes your business needs to succeed.

Every one of your future senior leaders needs to be able to 'lead with influence'.

Modules are tailored to meet the needs of your people, and include:

The 12 Traits of Extraordinary Leaders

How does a poor leader make you feel? How does a good leader behave? We discuss in detail the 12 Traits of Extraordinary Leaders plus discuss the results of individual diagnostics (HBDI, Insights, Surrounded by Idiots, ...)

Emotionally Intelligent Leadership: delivering exceptional, sustainable results

High EQ leaders enable others to deliver their best. They reach outside their team, department and organisation to obtain the information, insight and assistance they need to deliver high-quality, sustainable outcomes. Delegates develop their emotional intelligence and their delivery skills, leveraging our unique 'Chequerboard of Leadership'.

Putting EQ into practice: Managing interactions and inter-dependencies

Developing the skill of navigating difficult interactions and managing inter-dependencies helps us to draw upon all elements of Emotional Intelligence and put them into practice – self-awareness, self-regulation, empathy, relationship management and motivation.

Communication that works

Critical tips and strategies to produce communication that works - written communications and presentations that people notice, listen to and action. We explore different communication preferences and thinking styles using 'Surrounded by Idiots' as a guide.

Leading, Influencing and Embracing Change

The ability to lead successful change is the most important leadership skill of them all. The ability to embrace change is the most important life skill. From Campbell's award-winning books and workshops, delegates discover why 88% of change initiatives and business strategies fail – and how to be the 1 in 8 that succeeds.

Strategy, culture and agile delivery

Leveraging CSI's strategy framework to explore how a strong strategic core enables agility - the ability to flex actions to cater for changing situations - without losing focus on the core goal. Develop an agile mindset means and create a culture of continuous improvement.

Influencing without authority

A critical skill - the ability to influence in one-to-one and group situations. Delegates then start to put this into practice, planning which tactics to use to influence their key stakeholders. Can also include successful matrix management, managing upwards, ...

Teams

Making cross-functional teams work. Being an exceptional team member. The 9 Components of Extraordinary Leadership Teams. Where is your team on the Spectrum of Leadership Teams? Why?

Action

Each leader selects a business-critical objective and builds a change plan to deliver it, using CSI's tried and tested template, and presents their plan to their peers for feedback at a workshop from which they emerge with a certification from The Institute of Leadership & Management.

1:1, peer and group mentoring sessions after several modules

Each delegate receives 1:1 and group mentoring throughout the program. They also receive a year's membership of The Institute of Leadership & Management.

Delegate reactions

"The workshops have been incredibly thought provoking. I love the little pieces of insight / sound bites that make me think. Great to have such a diverse group of people with different perspectives from across the business."

"I am not usually a big fan of training as I have been on so many bad ones. I love your sessions – so relevant, your experience and anecdotes bring the content to life."

"I have loved every one of the sessions. The time goes really quickly which is a good sign! Some new approaches and some helping me to realise what I know, remind me of them and help to put them into practice."

"Presenting was my biggest fear. Your process and structure is a life saver. Thank you."

"I usually hate templates, but the Implementation Plan template was incredibly useful."
